Meat Processing Company Nākotne

"Nākotne" is a big family company engaged in meat processing. It takes pride in long lasting traditions. We make our products following the old recipes inherited from our ancestors, and combine them with innovative technologies and high quality standards. Inspired by the past, we create the future. The word "future" in Latvian is translated as "nākotne".

Past and Present

The Jankūns family has been engaged in the manufacture of meat products for a long time, passing the secrets of meat smoking and recipes of marinades from generation to generation.

In 2000, the family hobby overgrew into the meat processing company "Nākotne", which successfully entered the national and European markets.

In 18 years, the company's turnover has grown more than 160 times.

Today, the meat processing plant produces 20 tons of finished products daily. These are more than 160 different types of products.

The company employs 250 skilled employees, who have undergone special training in accordance with the company standards.

Our Awards

"Nākotne" is the first company in Latvia that has received the national quality mark "Green Spoon". This mark affirms that our products meet the highest quality standards.

Never the less, "Nākotne" is the first meat processing company in Latvia who has received "Bio" meat product certificate.

2006 Silver Medal at the Riga Food Exhibition;

2011 Product of the Year award;

2012 Product of the Year award for the second time;

2012 "Nākotne" is recognised as the best company in the region;

2013 Product of the Year;

2014 Took the 6th place as the most purchased brand in Latvia, according to the magazine "Forbes";

2014 The 12th and the 13th places in the ranking of successful family businesses of the magazine "Forbes";

2016 Product of the Year award;

2017 Product of the Year award for four products.

Quality

We pay special attention to the quality of our products. We control their compliance with the standards at all stages of production, so rightfully possess all required certificates.

We are proud that our products have been repeatedly awarded with various quality marks.

Production and Technologies

We buy raw materials only from the suppliers that are approved and certified.

We use the most modern equipment, which is produced in the EU.

We closely follow global technological innovations and adapt them to our production.

Each employee undergoes special training and has to pass regular tests to prove their compliance with the qualification standards of the enterprise.

Finished products pass quality audits at independent laboratories in Latvia.

Halal

We are proud to have Halal certified products. Certificate confirms that the product meets Halal meat production standard.

Products

Our products are manufactured in conformity with the highest European standards. Moreover, we guarantee to our clients not only perfect quality, but also excellent taste of our products.

Cooperation

Having a long-term experience in working with the largest retail chains in Europe (including the "private label" production), we guarantee the following to our partners:

- Fulfil orders in full amount;
- Unquestionable adherence to the agreed terms;
- Provide service of logistics, including air transportation;
- Stable prices for our products.
